

I would like to let you know how K-Love serves my community. It is an uplifting, safe radio station that I can trust to have on in my car without being concerned what my 2 year old is picking up. It gives me local information about Christian happenings in the area that I would not necessarily have access to. It reaches out to everyone and helps them to see hope in a world that can be overwhelming. In a world where filth is commonplace in our media, we need to support stations such as K-LOVE by not displacing them with other programming by an LPFM broadcast.
